me@silvestar.codes

Born: **23.9.1986**.
Location: **Osijek, Croatia**
Father, husband, entrepreneur

I am Silvestar Bistrović, fearless web developer, CSS craftsman, JAMstack enthusiast, and WordPress theme specialist.

I enjoy creating pixel-perfect, responsive, and modern websites. My focus is on delivering the best experience for users on every device. Making faster, lighter, and more secure sites using WordPress or Static Page Generators is my specialty.

When I am not coding, I like to write new articles on my blog.

I am working as a freelance web developer remotely from my office in Osijek, Croatia.

S. Bistrović

Fearless web developer

I would never give up learning and solving problems.

CSS craftsman

CSS is my passion. I like it neat, organized, reusable. Cascade excites me. Cross-browser support, too. Not really, but I know how to tame it. Sass, Less, Stylus.

JAMstack enthusiast

I built websites with Jekyll, Hugo, Hexo, and Middleman before. I could do it again.

WordPress theme specialist

I know how to code slick, responsive, modern, optimized, high-performing themes.
